Life Pricing Actuary - CEE Markets

Location: Switzerland
Salary: Competitive

Role:

I am currently representing a key player in the global reinsurance markets who are seeking to expand and strengthen their coverage of convergent and emerging markets covering the Central & Eastern European region by hiring a Life Actuary with exposure in this area.

Suitable applicants will be life actuaries (part or fully qualified) with exposure to pricing across life products covering the above market areas. Exposure to Russian markets will be ideal as will be the desire to cover multiple geographic regions for both traditional pricing issues as well as more complex portfolio modelling methodologies.

To fit well into the local team, German language skills are ideal but the key emphasis will be the ability to demonstrate a solid track record of success in your actuarial career.

Sound like an interesting role? CVs in confidence to discuss.
